The OWOW docs are not showing up on line. Any ideas?

Rich,
The documents still have not shown up on FOIA online. Could you please find out what's going on and let me know ASAP? Thanks.
Kerry

Hmmm, when I open the folder, it has the same number of documents (444) that we had after your last production and it shows that the last documents were uploaded on 5/18/15. So I'm not sure what is going on?

Usually I get an automatically generated email from FOIAOnline that the docs are there, which I have not yet received, so perhaps I will get that email when the docs are available to the public.

Rich, the documents still aren't showing up on FOIAOnline for me. Is there a way for you to double-check that they have been posted? Thanks much.
